

# F15C1 Final Project

---

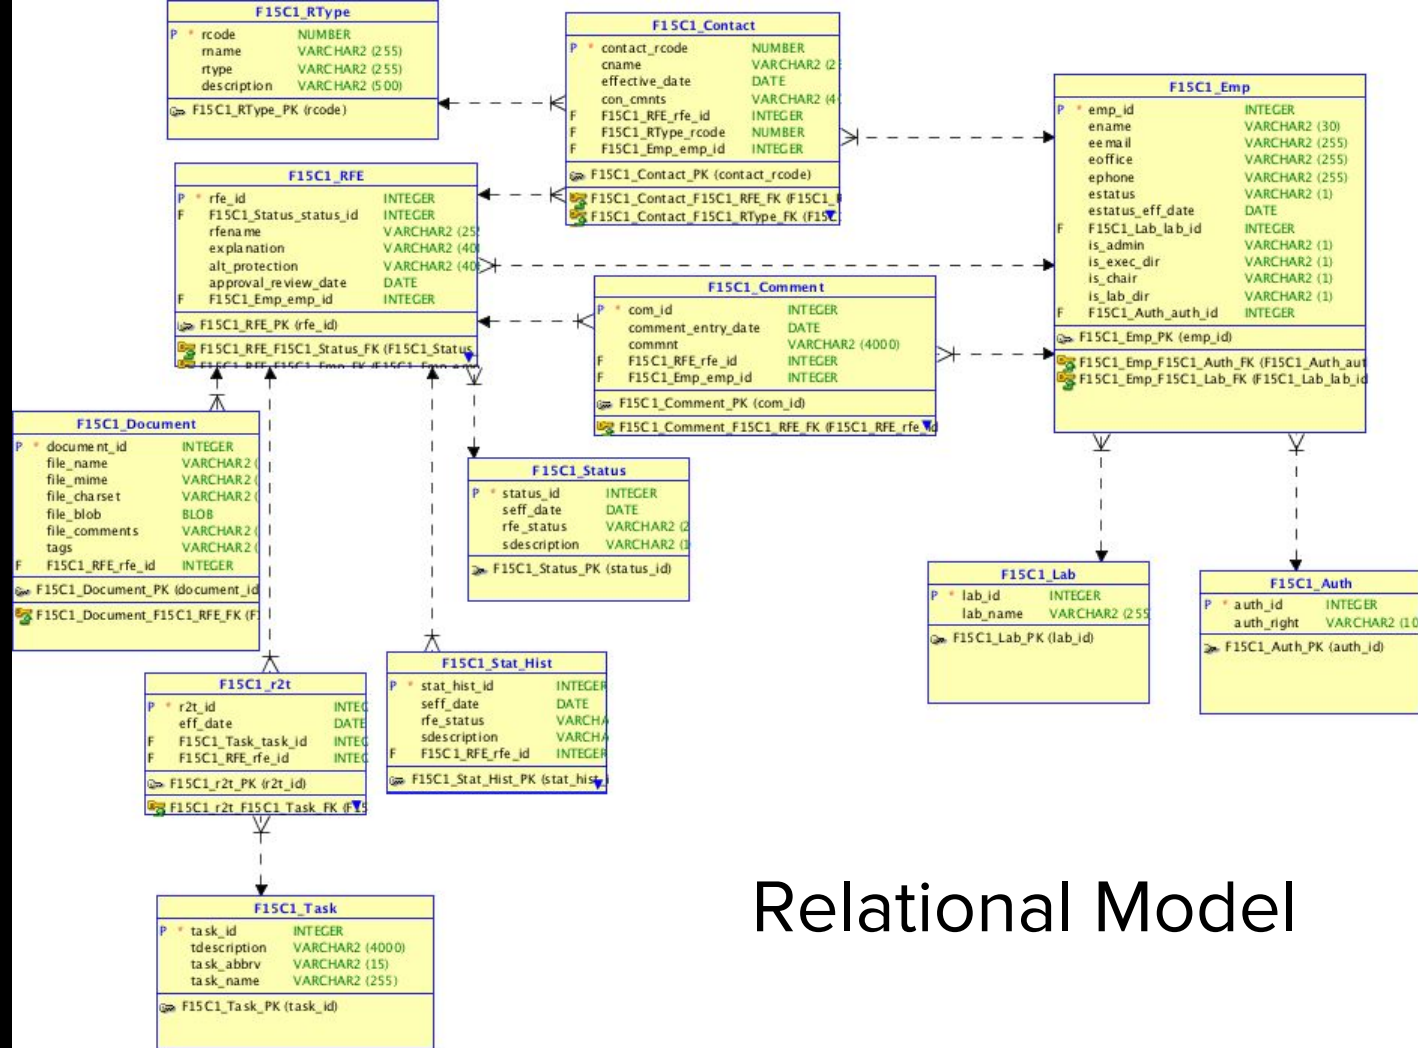

Barrett Hinson and Cody Hill

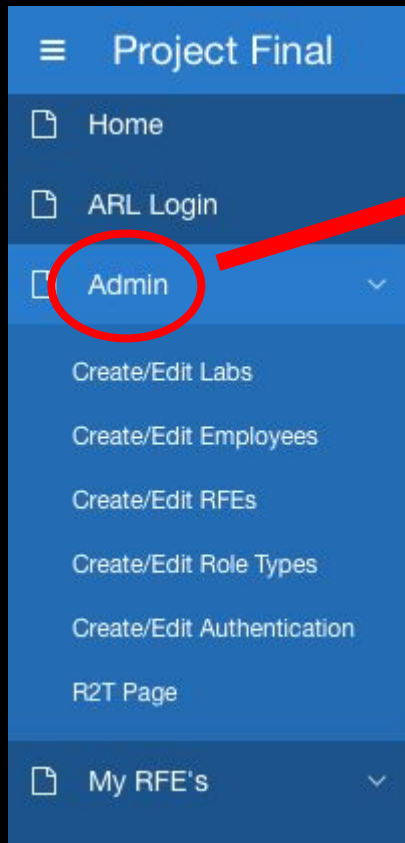

# Conceptual Model

# Logical Model

# Relational Model

# Key Features

- Admin tab
- RFE Perspective
- Restricted Access based on authentication

Admin only tab for creation of protected items like employees, labs, etc...

Create/Edit RFEs

Status: Entered

Rfname: Lee's other RFE

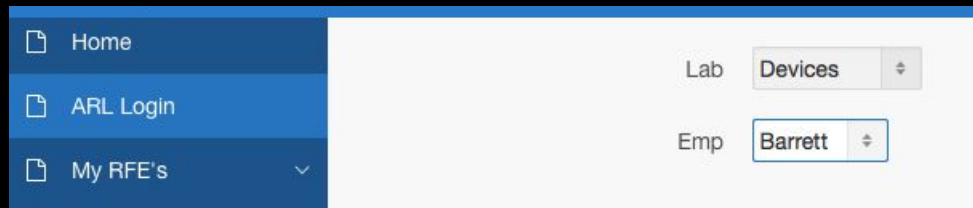

Explanation: Lee made an rfe again...

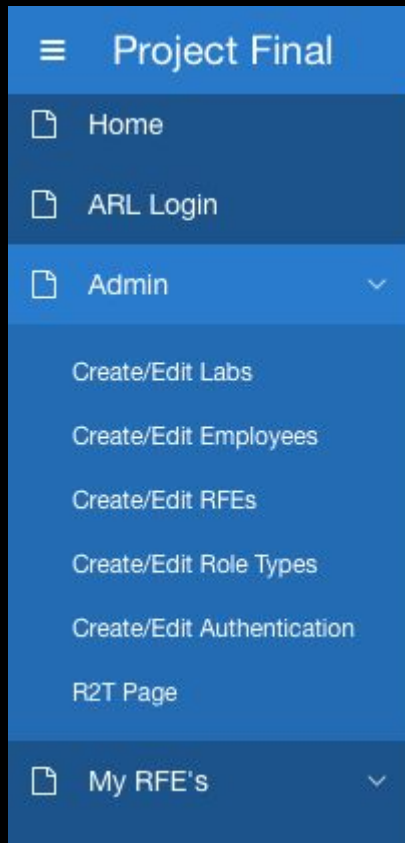

Alt Protection: protected

Approval Review Date: 22-NOV-15

Requestor: Lee

Buttons: Delete, Cancel, Apply Changes

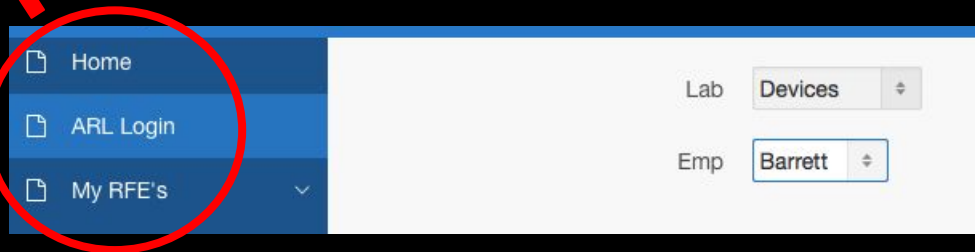

# Key Features

- Admin tab
- RFE Perspective
- Restricted Access based on authentication

A screenshot of a web application's 'Create/Edit RFEs' form. The form has a title bar with a close button. It contains several input fields: 'Status' (a dropdown menu with 'Entered' selected), 'Rfname' (a text input field with 'Lee's other RFE' entered), 'Explanation' (a large text area with 'Lee made an rfe again...' entered), 'Alt Protection' (a text input field with 'protected' entered), 'Approval Review Date' (a date picker with '22-NOV-15' selected), and 'Requestor' (a dropdown menu with 'Lee' selected). At the bottom of the form are three buttons: 'Delete', 'Cancel', and 'Apply Changes'.

When logged in as a regular user you only have access to Your RFE's or what your Authorization level allows

Delete Cancel Apply Changes

In order to minimize human error, all aspects of the application are done in relation to the RFE. This way the user will easily be able to see the context he is working within.
